Cyber Security is Everyone's Business

Tuesday, May 16, 2023, at 1 p.m. CST

With 82% of cyber security incidents being the result of human error, security leaders, auditors, and regulators increasingly recognize that a more intentional focus on the human defense side of cyber security is critical to the protection of organizations. At the forefront is creating a cyber-aware culture with employees that understand their respective roles and responsibilities in keeping the organization, and themselves, cyber safe.
