nlburdick12@gmail.com

The Chapter had a great turn out for the last meeting of 2018. There were over 60 vendors, members and guest in attendance. Special thanks to all the Vendors that donated all the great door prizes.

January's Meeting

Our first guest speaker for 2019 will be Mr. Mike Lang, Principal Field Engineer for Mersen. He will be presenting a seminar titled: "Improving Electrical Safety with Short Circuit Protection." The presentation will last one hour with a brief Q&A session to following. The major points to be covered are: Hazards of Overcurrent; Current Limiting Fuses are Energy Limiting; Protecting Against Arc Flash Hazards; Addressing Interrupting Rating Issues; Addressing Short Circuit Current Rating Issues; Addressing Coordination Problems and Choosing a U/L Class Standard. This seminar is provided as information only and will not count as a CEU; however it will bring you up to date on the latest IEE and NFPA requirements on this subject.
